

Building Trust in Gaming

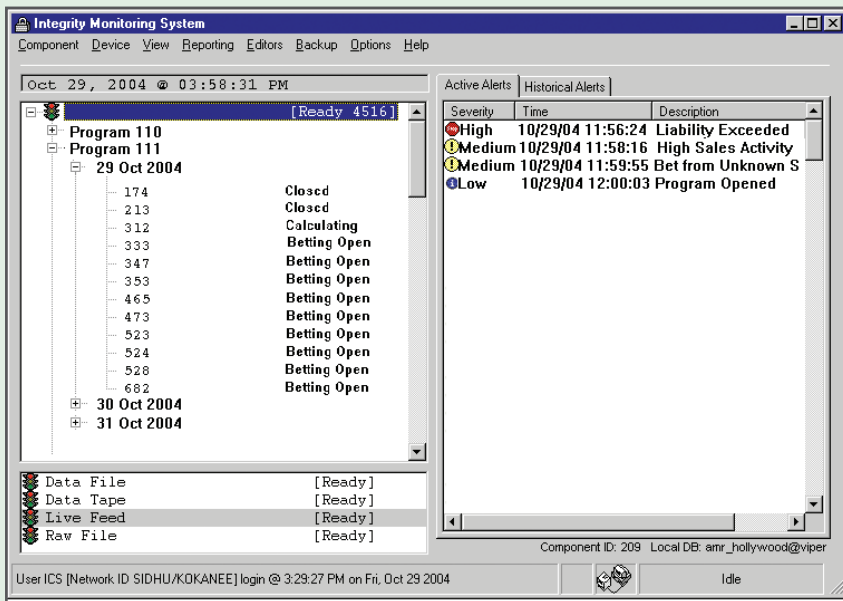

RISK MANAGEMENT FOR FIXED ODDS SPORTS BETTING

The *Integrity* Sports Betting Monitoring System is an independent liability tracking and risk management system for sports betting. *Integrity* mitigates the key risk factors involved in fixed odds sports betting by offering real-time monitoring and auditing capabilities.

- » Independent verification of all betting transactions.
- » Real-time monitoring of betting trends and potential liabilities.
- » Alerting for suspicious betting activities.
- » Regulatory compliance monitoring.
- » Auditing of sales, payouts and liabilities.

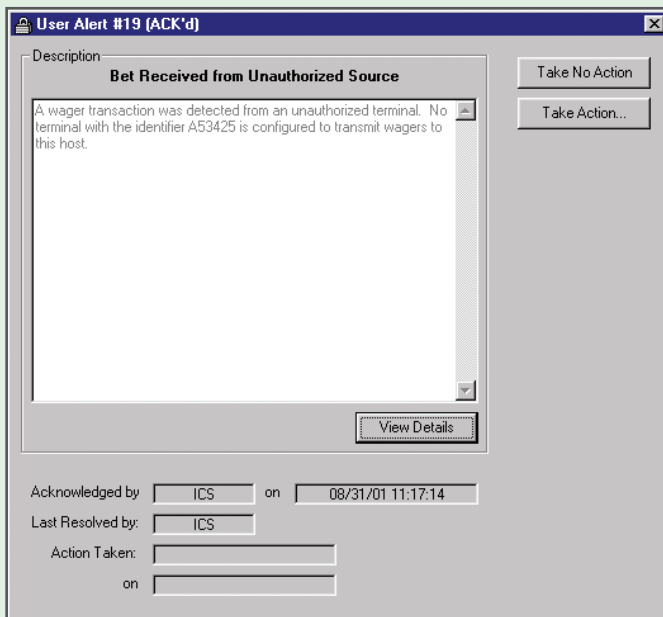

THE INTEGRITY SYSTEM ADVANTAGE

- » Independent real-time monitoring of all wagering transactions.
- » Powerful liability tracking allows users to define alerting thresholds for specific events, event categories, days and programs.
- » Real-time tracking of all sales and financial transactions down to the teller level including cancels, refunds, multiple cancel attempts, time delay between wager and cancels etc.
- » Independent auditing of sales, potential liabilities, actual liabilities, outstanding liabilities.
- » Real-time visualization of wagering trends and patterns.
- » Powerful investigative tools for analysis of unusual wagering activity.

INTEGRITY SPORTS BETTING MONITORING SYSTEM

Built on industry-proven continuous monitoring technology, the *Integrity* Sports Betting Monitoring System works in parallel with the online gaming system to independently log and validate all wagering transactions against game rules. The easy-to-use *Integrity* graphical user interface emphasizes simplicity and usability. Users can view their entire operation at a glance, improving the efficiency and effectiveness of their analysis. The *Integrity* system is designed for unattended operation, with remote notification facilities in the event of an important alert being raised.
